

2026 IEEE PES INTERNATIONAL MEETING

GLOBAL POWER AND ENERGY SYSTEMS RESILIENCE:
LEVERAGING COLLABORATIVE EXPERTISE

Sponsorship Deck

IEEE Power & Energy Society (PES) International Meeting 2026

18-21 January 2026, Hong Kong SAR China

IEEE Power & Energy Society (PES) is committed to advancing the energy sector globally, strengthening grid resiliency, and building modern power systems. We are delighted to extend a special invitation to you for the inaugural IEEE PES International Meeting: Global Power and Energy Systems Resilience: Leveraging Collaborative Expertise (PESIM 2026). This prestigious event will be held from January 18-21, 2026, in the vibrant city of Hong Kong.

PESIM 2026 represents our premier power and energy engineering event outside North America, bringing together PES members, experts, power and energy engineers, key academics, policymakers, and engineering students for an unparalleled opportunity to collaborate and share knowledge with a global audience.

Jointly organized by IEEE PES and the Research Centre for Grid Modernization at the Hong Kong Polytechnic University, PESIM 2026 aims to unite these communities by providing an international forum for experts to network, promote, share, and discuss critical power and energy topics. This forum will address the critical issues facing the power and energy sectors worldwide. It also provides a unique platform for those unable to attend North American conferences to contribute to the global conversation.

At PESIM 2026, we will showcase cutting-edge research and practical solutions for power and electrical professionals across five key areas: resilient grid infrastructure, modern power system operations, decarbonization strategies, digital transformation, and energy market policies. Your presence and insights would be invaluable to the success of this event.

Prof. CHUNG Chi-yung

Head of Department and Chair Professor
Of Power Systems Engineering

Co-Chairman of the Organising Committee
Of IEEE Power & Energy Society International
Meeting 2026

BEng, PhD, PEng, FCAE, FIEEE, FCSEE, FEIC,
FIET, FHKIE, FAAIA, FAIA
